

Public & Private Events

The public is cordially invited to attend and participate in any 🌿 Pow-wows, drum circles (often led by a First Nation elder), 🌿 the mitten project, 🌿 old fashioned craft exhibitions, 🌿 semi-annual psychic fairs, 🌿 outdoor concerts and 🌿 May Day celebrations.

Private gatherings need not be complicated. ASP has clean in-place toilets, running water and hot showers, and the staff is here to help with your own rustic family-friendly events: camping, weddings, catered or BYO meals, and recreational activities. We serve as a venue for community projects and business team-building events. Fees for private events are reasonable, varying according to the number of people and the facilities required.

We Rely on *Your* Generosity!

A Sacred Place is a 501 (c) 3 non-profit Public Charity that relies solely on private donations, fundraisers, and admission fees to our many seasonal events in order to continue offering those events and assisting the homeless and needy throughout the State.

according to our charter.

A Hidden Sanctuary

Nestled in the foothills of New Hampshire's White Mountains, only 14 miles from Lebanon, is a

hidden sanctuary known as *A Sacred Place* (ASP). Forty-one acres of quiet woodland paths, a gently flowing stream and pine-fresh air offer to soothe, rejuvenate and reconnect you to Nature and the peace it offers.

Nature, Mind & Spirit

Guests are invited to affirm their connection to Deity, Nature and each other in a respectful manner in order to replenish body, mind and spirit. So while the ongoing charge of *A Sacred Place* is to allow diverse spiritual paths to come together in harmony, the

pressing needs of New Hampshire's needy add a deeper dimension to our charge.

Shelter & Other Assistance for the Homeless

Since 2006, ASP has taken a responsibility to seasonally house area homeless and to continue a robust year round clothing drive for the needy throughout the State. To date, nearly 15 homeless individuals and families have been sheltered, fed, clothed and helped to find paying jobs and permanent housing. They have been provided access to the internet for job searches, driven to and from area employment offices, job interviews, doctors' offices and, if necessary, helped in filing for food stamps and disability insurance.

In 2013, ASP's efforts were documented in the film "*The Invisible People*": by Tom Caldwell of Liberty Independent Media.

Petting Zoo

In 2015 ASP will be adding a petting zoo and baby goat "day care center" where children and parents can come pet and feed little kids "Snickers" and

“Licorice”, “Henrietta” the chicken, a turkey or two and perhaps some bunnies or other “friends”.
